- Scholarships for Meritorious Students**
- Only Govt. Approved Fees. No Donation**

**ADRAK ENGINEERING  
@  
TRINITY**

Our chairman Dr. Thomas Alexander, a Civil Engineer by profession, is the founder of AI Adrak, one of the largest construction conglomerates of the Middle East and is listed by Forbes as one of the top 50 businessmen. The full fledged engineering R&D office of Adrak India operates at Trinity offering internships and training for our students towards career on campus.

**INDIAN KNOWLEDGE SYSTEMS (IKS)**

**CENTER FOR KALARIPAYATTU**

One among the first 13 IKS centers awarded in the country by the Ministry of Education, Government of India. The Trinity center, funded by AICTE, will be operated in association with Agasthyam Kalari.

## COMPUTER SCIENCE ENGINEERING (CYBER SECURITY)

As the world is rapidly switching to cyber and digital ratio, it has become crucial to provide security and privacy for individual, corporate and governments. Cyber Security engineers will find jobs and career growth around the world and locally in the coming decade. Trinity also has a five years old International Cyber Security company Adcy.io in its campus to help hands own train our cybersecurity students.

## ELECTRONICS & COMMUNICATION ENGG.

Modern society is an information society. The importance of electronics and communication in today's world cannot be overstated. The rapid growth of personal communication devices such as smartphones, tabs etc.. has changed the way we live and work. The Electronics & Communication Engineering Department facilitates an interdisciplinary approach designed to meet future needs of the industry.

## MECHANICAL ENGINEERING

The Department aims to provide international quality education, enabling students to handle the latest technologies in the field of Mechanical Engineering and to face future challenges of industry and society. Presently there is a huge demand for mechanical engineers in the Automobile, Chemical and Electronics industries, Heavy Machinery, Oil Exploration and Refining, Technical wings of the armed forces, ISRO etc.

## ELECTRICAL & ELECTRONICS ENGG.

One of the mother branches in technical education, this core engineering subject is all set for the massive demand for electrical and electronics engineers that energy-starved developing market like India offers. The "Make in India" campaign launched by the Govt. of India stresses the opportunities and potential of Electrical and Electronics Engineering.

## CIVIL ENGINEERING

Civil Engineering, the oldest branch of engineering came into existence as soon as human beings thought about their primary necessities: food, clothing and shelter. It is safe to say that Civil engineers created 'Civilization' for mankind. Our college features Direct Absorption Program with Al Adrak, our parent company, the leading engineering construction conglomerate of Oman.

*Trinity welcomes aspiring engineers & their families to our campus!*
